Mr. William J. Casey
Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Bill:

It is my understanding that [] has transferred from your Legislative Liaison Department to the Office of Public Affairs.

While I am very happy [] has received this promotion, I must say her work with the Intelligence Committee will be greatly missed. During the 2½ years I have worked with [] she has impressed me with her knowledge of the Agency and the many complex issues she has handled. Her intelligence and common sense have also been great assets in dealing with the many rapidly moving issues we have considered lately, particularly the situation in Central America. Her expertise with regard to Central America and her eagerness to assist all Members on a bipartisan basis made her invaluable during the recent House debate.

The Latin American Division Chief and his excellent staff, particularly [] were of great help to all of us. [] coordinated that assistance with professionalism and enthusiasm.

Although [] work will be sorely missed, I want to wish her luck and continued success in her new position.

Sincerely,

C. W. Bill Young
Member of Congress
